

The Town of Greater Napanee operates three potable water filling stations that are available to our residents.

## Reminder: Potable Water Filling Stations

### **Small Potable Water Filling Station:**

Was designed for filling small containers, approximately 20L (5 gal.) or less. This **FREE** potable water is available 24 hours a day, 7 days a week. The filling station is located at 75 East Street in Napanee, on the North Side of the A.L. Dafoe Water Purification Plant.

### **Medium Potable Water (Coin-Operated) Filling Station:**

Is intended for filling containers smaller than 4.5m<sup>3</sup> (1000 gal.). The cost for this service is **\$2.00** for 1000L (220 gal.) Users must supply their own hose and fittings which is necessary to connect to the station. This filling station is located at 75 East Street in Napanee, on the South side of the A.L. Dafoe Water Purification Plant.

### **Large Potable Water Filling Station:**

This station is for filling large quantities of bulk water and is located at 57 Enviro Park Lane in Napanee. To use this filling station, an account must be set up. If you are interested in setting up an account, you can call 613-354-9338 or visit the Town Hall for more information. The large or 'bulk' filling station is typically used by bulk water haulers and various contractors.
